

ENVIRONMENTAL POLICY

PERFORMANCE UNDER PRESSURE SINCE 1986

At GRM Flow Products we are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimizes our potential impact on the environment.

We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do.

We will minimize our consumption of resources by reducing, reusing and recycling wherever possible with the objective of prevention of pollution and waste.

And at GRM, we will strive to continually improve our environmental performance and minimize the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities.
