SEAT REMOVERS

GRM Flow Products offers a complete line of tough and durable seat removal tools for the valve repair industry. These are designed to remove press fit seats from sizes 2 1/16" to 7 1/16" API Gate Valves.

Seat Removal Tool Assembly

Seat Tool Replacement Slips

SIZE	PART #		
	REMOVAL ASSEMBLY	REPLACEMENT SLIPS	REPLACEMENT BARS
2 1/16"	ST101216	ST102216	ST104216
2 9/16"	ST101296	ST102296	ST104296
3 1/8" & 3 1/16"	ST101318	ST102318	
4 1/16"	ST101416	ST102416	
5 1/8"	ST101518	ST102518	
7 1/16"	ST101716	ST102716	ST104716

PRESS IN SEAT PLATES

Also available are press in seat plates used to install seats back into the gate valve. They have a specially designed groove that eliminates the compression of the TFE seat seals to ensure the proper standoff of the seal on the seat face.

SIZE	PART #
2 1/16"	ST103216
2 9/16"	ST103296
3 1/8" & 3 1/16"	ST103318
4 1/16"	ST103416
5 1/8"	ST103518
7 1/16"	ST103716
